

[SAP - Learn about ABAP Cloud](#) > [ABAP Cloud Landing Page](#)

Get Started

Are you new to ABAP Cloud?

Have a look at [Get Started with ABAP Cloud](#) for a short introduction about ABAP Cloud.

Are you new to ABAP?

If you're completely new to ABAP, we recommend starting with the [Learning the Basics of ABAP Programming on SAP BTP](#). This learning journey provides you with the basic ABAP programming knowledge to develop in on-premise and cloud system environments.

Are you new to ABAP Core Data Services (CDS)?

If you are new to ABAP CDS, refer to [ABAP Core Data Services](#) introduction chapter of the `ABAP Data Models` guide for an introduction to the topic. In addition, we recommend the [SAP BTP ABAP Environment: Create and Expose a CDS-Based Data Model](#) tutorial to create your first simple CDS data model.

Looking for Additional Learning Opportunities?

Before diving into ABAP Cloud, you may want to get an overview of the ABAP Development Tools for Eclipse with the [Basic Tutorial](#). You can also refer to the ABAP cheat sheets as a collection of information on selected ABAP topics like ABAP SQL or internal tables in a nutshell for your reference.

There are several ABAP tutorials available grouped by the experience. To get started, check out the [ABAP development missions for beginners](#).

The developer documentation for ABAP Cloud is the first point of reference when you're looking for information about available features and how they're implemented. Have a look at [Documentation Overview](#) to find the relevant developer guides and reference documentation. You can also refer to the [ABAP Cloud](#) and the [ABAP Development Tools for Eclipse](#) help portal pages to all relevant deliverables and guides.

Looking for New Features?

New ABAP Cloud features are delivered as part of different SAP products. You can find the respective information in the product What's New viewers (links are prefiltered for ABAP Cloud-related what's new information):

- [SAP S/4HANA Cloud](#)
- [SAP BTP, ABAP environment](#)
- [SAP S/4HANA](#)

Looking for the Right Words?

Sometimes names can be confusing, especially when you're new to a topic. To get an overview of all terms that are relevant for technology related to ABAP Cloud and ABAP, refer to the [ABAP Glossary \(ABAP Keyword Documentation\)](#).

Asking Questions

If you have any questions, you can raise them in the [Q&A](#) in the ABAP Development SAP community.

[Get Started with ABAP Cloud](#)
